From NRC HQ: We are happy to announce that James Niven has provided the new indexes to the DXDD and the IDXD for Volume 91 of *DX News*. These have been placed up at the website nationalradioclub.org for your use and enjoyment. We would like to extend a hearty thank you very much to James for this service.

Our partner MW DX clubs are also out with a number of very helpful DXing reference tools.

International Radio Club of America (IRCA) has published the 2024 Mexican Log. It lists all AM stations in Mexico, including the usual frequency list, plus transmitter sites and a spreadsheet with links to web sites, live broadcasts, and Facebook page of many Mexican stations. It is free to all and posted on the IRCA website for all to download. https://www.ircaonline.org/editor_upload/File/2024-25_IRCA_Mexican_Log.pdf.

IRCA also publishes annually an invaluable TIS/HAR list by Phil Bytheway; click on https://www.ircaonline.org/editor_upload/File/TIS_2024.pdf for a free download. In addition, Kraig Krist maintains the IRCA Slogans list, also available for free at <https://misc.kg4lac.com/irca>.

Medium Wave Circle in the UK is offering an online “Radio Data Medium Wave” station log for the U.S. and Canada, along with interactive maps and propagation forecasts. This service, compiled by William Scott WE7W, is available for £ 3 or the equivalent. Visit <https://mwcircle.org/radio-data-mw-rdmw-2024/> for more information.

--- NOTES FROM CANADA ---

Jon Pearkins jon@pearkins.com

Corus owns many of the 50 kW major market AM stations in Canada. Its financial future looks slightly less bleak this month after it was announced that the group of Canadian banks currently providing credit to Corus will increase the amount of money available to them to tide it over until things improve.

- 680 CFTR ON Toronto – The All-News format earned the station #1 among AM stations in the Summer ratings, with 6.9% of Adults 25-54 years of age.
- 800 CJAD QC Montréal – The Summer Numeris PPM ratings are complete and CJAD ranks #1 among English-speaking listeners 12 years of age and older. The station had 31.6% of total hours tuned.
- 860 CBUP BC Merritt – The CBC was granted an extension until October 18, 2025 to move this 40 Watt LPRT to FM. It’s a **CBC Radio One** repeater of CBYK-FM Kamloops.
- 980 CKNW BC New Westminster – In the Summer ratings, the station rated #1 among listeners 12 years of age and older with a 12.2% share of hours tuned.
- 1010 CBR AB Calgary – In the Summer ratings, the station rated #1 with 15.1% of listeners 12 years of age and older. This number also includes simulcast CBR-1-FM, also in Calgary.
- 1170 CKGY AB Red Deer – The station moved to FM in 2001 and the towers were removed soon after, but recent photos of the transmitter site clearly show the transmitter huts are still present. This site was built in 1989 to accommodate CKGY’s daytime power increase to 50 kW.
- 1280 CJTM ON Toronto – Although their web site indicates they are still active, as of September 8 they had been off the air for more than two weeks. They normally run non-directional with 99 Watts.
- 1400 CHNL-1 BC Clearwater – The 1 kW transmitter rebroadcasting CHNL-610 Kamloops was shut down permanently on September 1 “due to circumstances beyond our control,” which usually means something expensive at the transmitter site needed to be replaced. A second repeater, CINL-1340 Ashcroft, was shut down last April.

Canadian Radio News posts on <https://radiowest.ca> by Dan Sys provide much of the information for this column, with additional tips from other contributors.

--- U.S. STATION NEWS ---

- 740 KVOR CO Colorado Springs – 9/19 0849 – Weather from KKTV (Channel 11); “Colorado’s 740 KVOR” slogans. They’ve been using this slogan for a while now, although it **does not appear on their website**. Wikipedia has picked up on it, though. (JW-CO)
- 1130 WISN WI Milwaukee – For those of you who are interested in ratings, as most of you know, most market ratings are dominated by FM stations. Well, we have some great news! “iHeartMedia’s Conservative Talk 1130 WISN Milwaukee continues to surge to new heights up for the fifth straight month 13.0 to **14.1** for what Ratings Expert Chris Huff notes is the station’s highest share since October/November 1969!” They have topped Milwaukee’s ratings for quite some time.

Thanks to radioINSIGHT for the WISN item.

--- TENTATIVE/ASSUMED ---

- 1130 KWKH LA Shreveport – 9/10 0445 – Best heard with SR-286 antenna roughly SW: briefly had equal strength mixing of Sports Talk on both CKWX, and possible KWKH, but gone before I could get the SR II tuned to 1130. Never previously heard even a hint of another station on 1130 other than CKWX, and KQRR on day power/pattern. Midwest DXers have recently been reporting KWKH very strong at night. (JP-AB)

--- UNID ---

- 660 unID - 9/8 0708 – Poor, with “K??? AM 660 – FM 106.?, your home for News-Talk and . . .” into C&W. Stumped! (JJR-WI)
- 800 unID - 9/19 0636 – Weatherology report: “High: 85,” [Lightning crash!]. Songs by Staple Singers and the Eurythmics, then lost. Poor. (JJR-MI)

- 1240 WMGJ AL **Gadsden** – 9/12 1328 – Despite their proximity, I had not heard this one yet! But here it is, with studio talk about scholarships for Alabama colleges. At 1359 an ad for a BBQ in Gadsden. Very weak, unless I place my Sony on a piece of fence I found in the woods behind my office, but lunchbreak is timed such that I can’t be there for ToH IDs. Strong “on the fence.” I need to work on my regular antenna situation. Follow-up to 9/12 logging – 9/13 1340 – Now I caught a real ID, since they air a disclaimer that WMGJ is not responsible for the content of the following program. Strong “on the fence” again. (EB-AL)

The audio has frequent disruptions. “Be sure to follow Georgia [. . .] football.” At 1945 suddenly completely drowned in IBOC noise, apparently our local 1260 IBOC-only pest just had an outage and I got lucky! WBOJ is also listed as a Georgia Bulldogs affiliate. Quite strong until WYDE-1260 killed it. (EB-AL)
- 1270 WLIK TN **Newport** – 9/11 0655 – In a soup of many stations, and in WYDE’s null, heard an ad with a phone #423- is heard (Eastern Tennessee). Apparently, a music station is trying to sign on their daytime pattern which dominates whenever on, but it keeps cutting out after a few seconds, with the same music continuing weak in the soup. - 1320 WMSR TN **Manchester** – 9/13 1329 – “Local Obituary Report” of “_ MSR Radio” about visitations in a church. Then some right wing talk. At 1357, local community calender about events in “Manchester.” Very weak, and that’s with the booster fence (see 1240). Also logged on 9/14 @ 0057 – Nice to hear this also on night power, after hearing it for the first time ever during the daytime today. Talk about vote rigging. Then “WMSR your local weather,” ads “in Manchester, Tennessee.” Quite strong at times, with fading. (EB-AL)
- 1350 WRWH GA **Cleveland** – 9/12 1957 – Ads for ‘Georgia Ford,’ then going to the “Georgia Bulldog Network” – it’s football night. The bulldogs list WRWH as their only affiliate on 1350. Fair signal with fading. (EB-AL)

- 1590 WPIW IN **Mount Vernon** – 9/14 0214 – Country music and “Indiana” mentioned. The WPIW webstream confirms it’s them. Just 500 Watts, but it’s from Indiana’s southernmost parts. Fair signal, but fighting with several other stations. (EB-AL)

For loggings of stations outside the U.S. and Canada

All times are Universal Coordinated Time (UTC)

TRANS-ATLANTIC DX

- 711 unID SEP 15 0540 & 0546 – Only hit in a full 9/kHz bandscan for JBA TA carriers – presumably El Aaiún, Morocco 300 kW, a.k.a. Western Sahara – unless it's a Cuban +1 kHz spoiler like 631, 891 and 1141 kHz. [Hauser-OK]
- 855 unID SEP 14 0353 – Only 855 in full 9/kHz bandscan, and it's really JBA, presumably Spain. So many of the UK and Spain MWs are deceased or depowered. MWlist still shows 9 RNE synchros here up to 100 kW 24h but also hipowers in Romania, Ethiopia, Saudi Arabia. [Hauser-OK]

PAN-AMERICAN DX

- 650 **CUBA** *R.Progreso*, Ciego de Avila SEP 21 1000 – Over WSM; telephone talk through the hour without ID break, parallel 640 and 690 kHz. [Conti-NH]
- 678 **CUBA** *R.Rebelde*, unknown location SEP 21 0959 – Good, stronger signal than any of the on-channel *R.Rebelde* stations; cuckoo sounder and jingle, parallel 670 kHz. A one night stand, not found the following night. [Conti-NH]
- 690 **CUBA** *R.Progreso*, Santa Clara//Santiago de Cuba SEP 18 0400 – Fair; jingle and marching band instrumental national anthem, parallel 640 kHz. [Conti-NH]
- 690 **MEXICO** XERG, RG La Deportiva, Monterrey, NL SEP 14 1205 – RG *La Deportiva* ID, then into a couple of vocal music selections, not deportivas. Barely readable in poor conditions. [Wilkins-CO]
- 730 **CUBA** *R.Progreso*, La Fe SEP 22 0400 – Fair, over presumed XEX and unID religious program; sultry jazz vocal parallel 640 kHz. [Conti-NH]
- 730 **MEXICO** XEX, W *Deportes*, México, CMDX SEP 20 0300 – Good; sports commentary mentioned Liga BBVA. [Conti-NH]
- 760.06 unID SEP 14 0407 – Low audible heterodyne on plus side of 760.0 stations like WJR and KCCV. Nothing nearly that far off in mwoffsets list. [Hauser-OK]
- 800 **MEXICO** XEERG Ojo de Agua, NL SEP 17 0635 – Usual dominant signal from KQCV has some very distorted interference on this frequency only. Not sure yet whether local, need to check on other radios. SEP 18 0635 – KQCV again tonight with continuous interference, extremely distorted seems like music, right on same frequency only. SEP 19 0620 – The extremely distorted signal is certainly XEERG. After two nights of hearing horribly distorted interference to KQCV, not noted earlier during primetime, but again now at 0620, although not as severe as before. This time I'm checking remote receivers. Not heard in Oklahoma City, so not a defect of KQCV itself. Not heard at Durango2 SDR, but yes, audible at Querétaro, Austin TX, even Truth or Consequences NM making me wonder if XEROK could be attempting a comeback. At 0625 also hearing it quite well at McAllen TX SDR in the RGV, so I stick with that. Without KQCV or other interference there, I can tell there are Spanish announcements between rock tunes. At 0638, Spanish ID mentions 92.9, a big clue, so let's take another look at listings. MWlist: XEERG, RG *La Deportiva* 92.9 FM, Ojo de Agua 10/2.5 relays XHERG 92.9 MHz, ex XEDD *La Tremenda*. [Hauser-OK]
- 810 **BAHAMAS** ZNS3 Freeport SEP 18 0400 – Over/under WGY; instrumental national anthem and ID. SEP 21 1000 – Good, over WGY; instrumental national anthem, then morning devotion. [Conti-NH]
- 840 **CUBA** CMHW *Doblevé*, Santa Clara SEP 21 0900 – Mixed with 4VEH Haiti and WHAS; canned ID, "Esta es Doblevé, desde Santa Clara..." [Conti-NH]
- 840 **CUBA** *R.Rebelde*, unknown location SEP 15 0400 – Under WHAS; choral national anthem followed by cuckoo sounder, parallel 670 kHz. SEP 22 0359 – Over/under WHAS; midnight lullaby and choral national anthem parallel 670 kHz. [Conti-NH]
- 860 **MEXICO** XEUN México, CMDX SEP 18 0600 – Under CJBC; presumed XEUN with choral national anthem. [Conti-NH]
- 890 **CUBA** *R.Progreso*, Chambas SEP 18 0300 – Strong signal, distorted audio; "Radio Progreso, emisora de la familia cubana," parallel 640 and 690 kHz.

Transmitting continuous spurs at 888, 889, and 891 kHz, presuming 892 kHz is there too but buried by local 900 WGHM. It leads me to believe that these spurs could be continuous 1 and 2 kHz tones in the audio rather than carriers. [Conti-NH]

- 910 **CUBA** *R.Metropolitana*, Villa María SEP 18 0400 – Fluttery signal; flute instrumental, choral national anthem. [Conti-NH]
- 940 **MEXICO** XEQ México, CMDX SEP 21 0059 – Poor; “¡La Q 940!” and Mexican music. “¡La Q 940!” again at 0102 UTC. Unusual to receive this early in the evening. [Conti-NH]
- 970 **MEXICO** unID SEP 14 0359 – Spanish dominant, mentions “faul” so a béisbol game or sports talk about it. In NRC AM Log, only two USA Spanish listed, neither at all likely, silent in Florida or religious in Maryland. So Mexico: IRCA Mexican Log has four, headed by *R.Fórmula* flagship XERFR México, 50/5 kW and only one other maybe, XEJ Cd. Juárez, Chih. 1/1 kW. [Hauser-OK]
- 1000 **CUBA** *R.Artemisa*, Artemisa SEP 18 0359 – Good; signature music with ID, “Radio Artemisa... patria o muerte, venceremos,” choral national anthem, parallel 1020 kHz. Seemed to sign off after anthem. [Conti-NH]

Fear of yet another lightning strike has kept me from listening to anything current for most of the summer. But the storms cleared and I finally braved hooking up an antenna again. The south beverage still has a horrible noise on it, but the west superloop is listenable. Recorded a few nights a couple weeks ago and have been reviewing. After 900-CHML went off the air, I started digging into 900. Mostly WURD-PA. But at 6am Eastern on 8/15 I tuned to 900 and heard some gospel music and then an announcer who sounded like WURD but then IDed as WGOK in Mobile, AL at great strength! I then started scanning frequencies on that timeslot and picked up new 1000-WKLF-AL and best recordings so far of 1070-WAPI-AL, 1140-WQBA-FL.

Other loggings from the 8/15 opening included: 1270 WLIK Newport, TN – very strong; 1360 WELP Easley, SC, heard on both 36 watts night and 5000 watts day. New; 1380 WKJV Asheville, NC with southern gospel, ID, weather. New; 1430 WBLR Batesburg, SC with Spanish R. Amistad ID. New; 1440 WZYX Cowan, TN, with ID and Fox News. New; 1560 WSBV South Boston, VA with morning sign-on; 1600 WUCT Algood, TN, with newstalk941.com ID and CBS News. New; 1620 WNRP Gulf Breeze, FL, with “newsradio ... Pensacola”; 1630 KKGM Fort Worth, TX, with Black Info Network news.

Just returned from a week in Cape Cod. DXing from our rental house in Brewster was not great, and got worse when the amp in the Chinese-made "YouLoop" (from Etsy) died. I did one DXpedition to Monomoy National Wildlife Refuge on tip of the Cape Cod elbow using just a longwire strung long the top of a wooden fence. Signal levels were good and noise was low, but it wasn't an interesting night DX-wise. According to Mark Connelly, the next night was exceptional. In the words of Agent Maxwell Smart "I missed it by that much." Nevertheless I'll go through the whole recording to lay the foundation for a proper Cape Cod log. With retirement approaching, we plan to spend more time there and hopefully pull in much more DX. Would very much like to hear Brazil once in my DX career.

Wishing everyone a great DX season ahead. Rick

Hi, all... Greetings from Tucson! I have been away from DXing for a while (been pretty busy here), but I am (finally) coming back to it. Right now, the only receiver I have is a Sangean SR-35. Not a bad little radio for what it is, but at some point I would like to get something better. Come to think of it, I have a Yaesu FT 817 somewhere....

Anyway, one of the things I've been thinking about doing is seeing how many different states I can collect on the A.M. band. And yes, I know I am setting a challenging task for myself. But then again, I've always liked a challenge. This would be kind of a Medium Wave DX "Worked All States." I'll let you know how that turns out. Good DXing to all. Adam

Veries: KOKC, WSB. Semi-local 1230 WONN switched from NOS to Fox Sports Radio. Too bad, they had a good format. No other changes noted. I usually set goals for the DX season. This year I set only one goal, to hit reception reports to 50% of my domestic stations heard. I currently need 32 but as I hear new stations that number will increase. For new equipment I hope to build a 4-foot loop antenna. I recently picked up some RG-58 coax so I have a start. Did my yearly change of the AA batteries in the 2010. They were starting to get weak and the LCD display was starting to get dim.

It was nice to see a recent Muse from Ron Musco. I wish more of the longtime members would occasionally send something in. The start of the new DX season is already promising and I hope that everyone hears interesting stations. Martin

Last issue, I mentioned the new Tecsun S-2200X. Broadcast Engineer Jay Allen's review is now complete and published on radiojayallen.com. Despite the huge size difference, its performance is very similar to the Qodosen SR-286 and DX-286: the S-2200X is a little lacking in Sensitivity with the internal ferrite rod antenna and very sensitive in low noise environments with the non-directional whip antenna or an external antenna. Jay notes that the S-2200X picks up a lot of RFI if you try to use it while plugged into a standard AC wall outlet. Alternatively, it can be powered either by two 18650 rechargeable batteries or four standard D cells. It is next to impossible to find anyone selling the S-2200X quite yet. Amazon will eventually carry it and anon-co.com expects a shipment at the end of September. The radio's retro look comes from the front panel which is made from the same plastic mold as the Tecsun S-2000.

In order to save time and trouble for everyone, may I refer readers who want to see my domestic MW DX, to the IRCA iogroup listserve (which also serves NRC) where I should post reports more or less weekly. There is also an International version which may contain more detail than in IDXD.

Or, MWDX is included in my weekly all-band report roundups, posted early each UT Thursday, via: <http://www.worldofradio.com/Hauserlogs.html> 73, Glenn

Going over some old recordings, I found a new logging, WOBL in Oberlin, OH with part of an ID on the half hour on April 8, the day of the eclipse. I recorded it at my NY QTH from the Qodosen SR-266 from NY. If I had unlimited time, I bet I'd find a lot more :) On a recording from CO made on 9/4 at 0159, CFSL Weyburn SK CAN popped up with a clear ToH ID over the local KVCU which was playing very loud, continuous music. KVCU never seems to do its IDs on time and CFSL even dominates sometimes.

I'm still trying to master the SDR# AM Co Channel Cancellor. Someone in one of the online groups mentioned the possibility of having a Zoom session conducted by people who are conversant with using this feature. I for one could really use something like that. Any volunteers? (*Working on it ... hopefully we'll have something to announce next issue. – DY*)
